Take the Right Step Towards Reducing Your Environmental Footprint

with Nexeo Solutions' Beneficial Reuse Program

Proactively Manage Your Company's Waste Stream

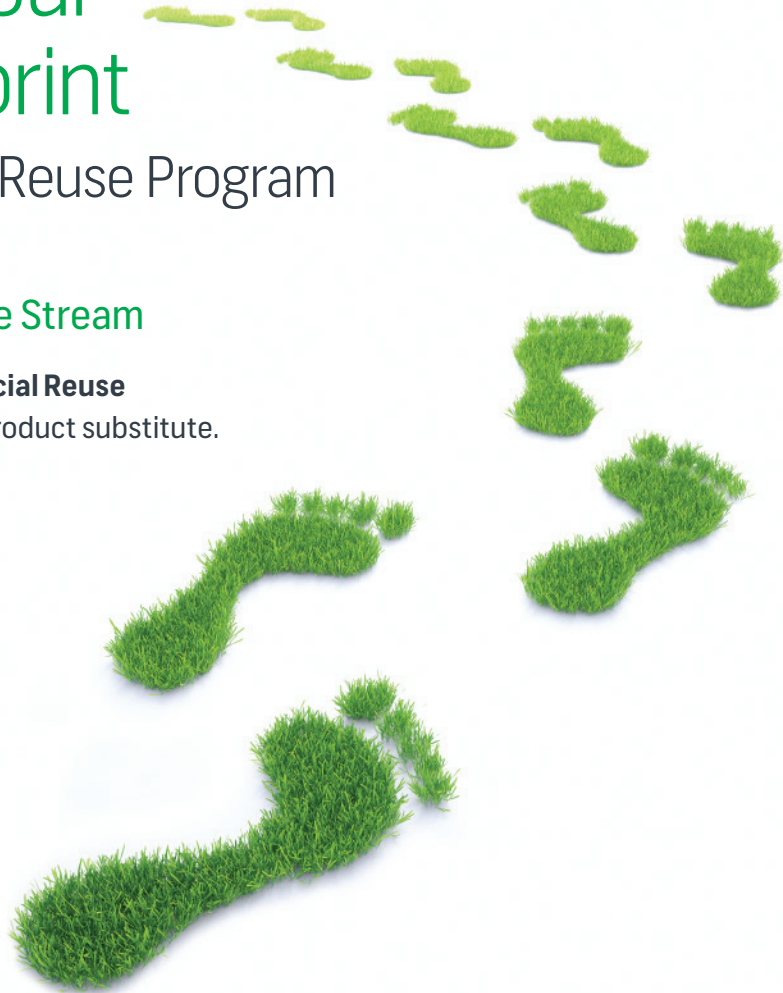

Help make waste disposal a thing of the past. Our **Beneficial Reuse Program** will find an outlet for your waste material as a product substitute.

Here's your opportunity to have a partner who embraces product stewardship, sustainability and can assist you in complying with applicable laws and regulations.

Our ability to generate MSDS and labels provides you with a seamless transition from waste to product.

We can guide you through:

- Beneficial Reuse Audits
- MSDS and Labeling Guidance
- Reuse Accountability
- Waste Minimization
- Zero Landfill Goal Attainment
