PRESENTS

“HEALTHCARE VERSUS COMMERCIAL GRADE MATERIALS FOR MEDICAL APPLICATIONS”

Join us at the MD&M West Tech Theater to hear an industry expert discuss how to best understand the process of selecting a material for a medical application, whether for primary/secondary packaging or medical devices. Learn about technical and regulatory requirements and services each material in the market has to offer, and the differences between healthcare and commercial grades. We will describe a plan and the criteria needed that companies could follow when selecting a material for their healthcare application.

Please come to our presentations on:

TUESDAY,
FEBRUARY 7TH OR
AT 3:30PM

WEDNESDAY,
FEBRUARY 8TH
AT 11:30PM

Located at:

MD&M West Tech Theater (In the Exhibition Hall)

1.800.531.7106 www.nexeosolutions.com
